Our Class of '54 is composed of 80 some individuals, each of whom exhibited some special talent while in high school. Some of us had skill in sports; others possessed talent in music or dramatics. Many of our members excelled academically, while others were skilled with their hands. The talents of some were not those that could be easily weighed or judged, some could make us laugh when everything went wrong and there were those who gave their time and help when others of us needed it.

Yes, each possessed a special talent and in using it, we not only enriched ourselves, but we added to the class as a whole, and these talents grouped together made a record that our class will never forget; a record that gave us each a thrill to know that we contributed. This is why each of us is proud to be a member of the Class of '54.
